CHINOMNSO UGBA

JUNIOR FRONTEND DEVELOPER

Awka, Anambra State, Nigeria | 07046411659 | chinomnsougba@gmail.com

Portfolio: https://portfolio-2026-ten-theta-90.vercel.app/ | GitHub: https://github.com/Chinomnso-Ugba | LinkedIn: https://www.linkedin.com/in/chinomnso-ugba-b372222a1/

PROFESSIONAL SUMMARY

Junior frontend developer focused on building responsive, accessible web interfaces with HTML, CSS, JavaScript, React, Tailwind CSS, and Next.js. Builds practical projects to strengthen frontend fundamentals, including API integration, browser events, and interface design. Brings additional experience in teaching technical concepts, mentoring beginners, and supporting digital operations.

TECHNICAL SKILLS

Core: HTML, CSS, JavaScript
Frameworks and tools: React, Next.js, Tailwind CSS, Vite
Development workflow: Git, GitHub
UI practices: Responsive design, accessibility
Design: Figma

SELECTED PROJECTS

PowerPlanner

Live: https://power-manager-one.vercel.app/ | Code: https://github.com/Chinomnso-Ugba/Power-Manager.git

- Built a practical planning tool intended to help users manage and compare income across daily, monthly, and yearly periods.
- Designed the interface around a restrained terracotta, slate, and ivory palette to keep financial information easy to scan.
- Developed the project around a common budgeting and income-planning need in Nigeria, informed by a problem the developer has experienced personally.

Weather App

Live: https://chinomnso-ugba.github.io/Weather-App/ | Code: https://github.com/Chinomnso-Ugba/Weather-App.git

- Built a weather interface as an early hands-on project integrating a third-party API with JavaScript.
- Practised requesting external data and using API responses to present weather information in a web interface.

Keyflow | Typing Speed App

Live: https://chinomnso-ugba.github.io/Typing-Speed-App/ | Code: https://github.com/Chinomnso-Ugba/Typing-Speed-App.git

- Built and continue to refine a typing-speed application, using a clean, white-background visual design.
- Practised handling keyboard input events and strengthened understanding of JavaScript event-driven interactions.
- Iterate on the project as an ongoing way to improve implementation quality and frontend problem-solving.

EXPERIENCE

Computer & Digital Technology Teacher | *St. Anthony's Catholic Comprehensive Institute, Agulu* | *January 2026 – Present*

- Teach Computer Studies and Digital Technology to secondary school students, explaining technical concepts through structured lessons and practical examples.
- Prepare lesson materials, learning activities, and assessments suited to students' levels of understanding.

Freelance Frontend Development Project | *Independent Client Project* | *July 2025*

- Built an approximately three-page website for a client completing a website assignment to a deadline.
- Used HTML, CSS, and JavaScript, including CSS Grid for page layout and content arrangement.

Frontend Developer | *Collaborative Web3 Hackathon Project* | *September 2025*

- Collaborated with a team of approximately six participants, including another frontend developer, on a concept involving token-based investment in agriculture.
- Built selected frontend pages explaining the project concept and providing educational information about the token.

Private Scratch Programming Tutor | *Independent Tutoring* | *October 2025 – April 2026*

- Introduced an eight-year-old learner to programming fundamentals using Scratch, including events, loops, conditionals, variables, movement, animation, and basic game logic.
- Guided the learner in building interactive games featuring keyboard controls, moving targets, scoring, and timed gameplay.

Frontend Development Mentor | *Intern Training, SecureCodes Software* | *May 2024 – October 2024*

- Guided two interns through separate training periods of approximately six weeks each, covering HTML, CSS, and JavaScript, with introductory exposure to React and Tailwind CSS.
- Supported beginner projects including portfolio websites, news layouts, and small web applications.

Frontend Development Intern | *SecureCodes Software* | *March 2023 – February 2025*

- Supported operational and administrative activities at a company providing school portal solutions.
- Assisted with digital operations and school-related information processing, gained exposure to school portal systems, and contributed to limited programming tasks.

EDUCATION

B.Eng. Electronics and Computer Engineering
Nnamdi Azikiwe University (UNIZIK), Awka, Anambra State
2025 | Academic requirements completed; certificate pending

Senior Secondary School Certificate Examination (SSCE)
University of Nigeria Secondary School, Nsukka, Enugu State
